

An introduction to ISPyB

Dean Keeble

I19 EH-1 Remote Users Workshop

What is ISPyB and why do we need it?

And that's just the data collection

- What *is* this sample?
- Where did it come from?
- Whose is it?

ISPyB is:

✓ a stable, efficient database supporting many beamlines at Diamond

ISPyB is not:

○ made for small molecule crystallography specifically
